## This Is My Earth Activity

### Step One: Research Outline

- Visit [www.this-is-my-earth.org](http://www.this-is-my-earth.org) and conduct research on your biodiversity hotspot
- You may also use additional resources to study your area

Area's name	
Continent, country	
Capital	
Currency	
Religion	
Government	
Language(s)	
Nationalities	
Area (mi <sup>2</sup> )* Example: <a href="https://en.wikipedia.org/wiki/Oregon">https://en.wikipedia.org/wiki/Oregon</a> - 98,381 sq mi *convert from hectares to mi <sup>2</sup>	
Area's price	
Habitat type	
Unique animals	

Endangered animals	
Main reason to conserve this area	
Possible conflicts or areas of issues	
Additional facts & research	

---

## Step Two: Presentation

- Now that you and your team have completed your research, use [\\*\\*\\*this presentation\\*\\*\\*](#) template to create a presentation to share with your classmates.
- Remember to **make a copy** of the presentation before making edits! How to make a copy in Google Slides: **File → Make A Copy → Entire Presentation.**

- Remember to **rename your presentation** with the name of the area and the names of all your team members.
